Filing Date: 11/09/2001
Applicants: Mel MacAllister et al.
Title: APPARATUS AND METHOD FOR MOLDING AN ANIMAL BODY
PART
Art Unit: 3643
Examiner: _____ Paper No. _____

Commissioner for Patents
Washington, D.C. 20231

DECLARATION OF ROBERT R. DELEAULT

I, Robert R. Deleault, hereby declare the following:

1. I am a patent attorney registered to practice before the US Patent and Trademark Office (Reg. No. 39,165) and have been a member in good standing since May 1995.
2. I have instituted certain office procedures pertaining to the filing of all patent applications both provisional and nonprovisional.
3. I personally examine and assemble all application papers to insure that all papers in support the specification are present and I personally insert the application papers into the US Express Mail envelope for filing with the US Patent and Trademark Office.
4. The above-captioned application included four drawing sheets where one of the drawing sheets contained Figures 7-10.
5. In the above-captioned application, the same filing procedure was followed and no filing papers, to the best of my knowledge, were missing in the application

papers.

6. In addition, all papers filed in the US Patent and Trademark Office include a prepaid, return postcard to acknowledge that the papers as filed were received by the US Patent and Trademark Office.

7. Attached is a true copy of the return postcard bearing the receipt stamp of the US Patent and Trademark Office.

8. The postcard confirms that all four drawing sheets were received, including the drawing sheet containing Figures 7-10.

Declarant further states that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Date: 5/14/02
